SUMMARY

Emerging IT professional with strengths in programming and communication. I enjoy puzzles and problem solving. Passion for applying technology to make organizations stronger.

CERTIFICATIONS / LICENSES

CompTIA A+

Completed my A+ certification for computer repair my sophomore year of high school.

Adobe Certified Associate

Became an ACA my junior year of high school. Mostly Photoshop work.

EXPERIENCE

INVENTORY, CUSTOMER SERVICE, AND SALES

CONSIGNED BY DESIGN – FISHERS, IN

February 2014 – Present

I provide services that support sales and operations of a busy furniture and home goods resale store. I often decide where my time would be best spent. At times this involves making decisions under pressure as multiple tasks need to be done quick. As a result, I have developed the skill of quickly evaluating priorities and multitasking.

EDUCATION

B.S. IN COMPUTER SCIENCE

DEC. 2018

Indiana University-Purdue University of Indianapolis
At IUPUI I learned about an array of current programming languages for various disciplines. Including: Java, Python, R, C, C++, C#, HTML, CSS, JavaScript, PHP, and SQL. Topics I focused on in my studies included: Artificial Intelligence, Data Science, Database Management among several others.

SKILLS

Experienced with nearly all common programming languages. Especially: Java, Python (2.7 and 3.X), JavaScript, and SQL. I believe I am capable of learning any new programming technologies.
